THE ADVANCED DIPLOMA IN MAINTENANCE & RELIABILITY MANAGEMENT

EARN A PRESTIGIOUS DIPLOMA FROM A TOP ENGINEERING SCHOOL IN THE COUNTRY

ADVANCE YOUR CAREER

NETWORK WITH INDUSTRY LEADERS FROM AROUND THE WORLD

PREPARE FOR THE CMRP EXAM

MARSHALL  INSTITUTE
Global Leaders In Maintenance & Reliability

Advance your maintenance and reliability career and gain confidence in leading your maintenance organization.

The challenges of today's increasingly competitive global marketplace, and in particular, modern process and manufacturing industries are complex and asset intensive. You must know how to face these challenges in a manner that maximizes uptime and minimizes operational costs. Plants and facilities need to be maintained so that process safety and asset integrity are not compromised.

This comprehensive yet flexible diploma is designed for working maintenance and reliability professionals and is based on real-world concepts, strategies, best practices and emerging trends. Learn from, and network with, Marshall Institute's experts and fellow peers to supercharge your career and professional performance.

THE ADVANCED DIPLOMA IN
MAINTENANCE & RELIABILITY MANAGEMENT

"I think that the MRM series is very valuable for anyone in the maintenance and reliability field. You gain so much knowledge and so many useful tools to help better your organization."

Amber Pratt, Transmission Assembly Manager, Raymond Corporation, Greene, NY

OFFICE OF PROFESSIONAL DEVELOPMENT

THE ADVANCED DIPLOMA IN MAINTENANCE & RELIABILITY MANAGEMENT

MRM Summit Series

The next step of your professional development is here. The MRM Summit Series includes FREE monthly webinars for graduates and soon-to-be graduates to advance education, share best practices, solve real-world problems, and build a strong professional community.

MRMsummit.com

Attend modules in any order in as little as one year or as many as three years.

You will earn your diploma by successfully completing the three modules, passing the exams, and completing the homework requirements within three years of finishing your first module. You can attend the modules in whichever order you prefer and any combination of in-person and online classes. This diploma is designed for working professionals.

Graduates receive an embroidered Nike® Dri-FIT™ shirt!

Who Will Benefit Most

Aspiring or current leaders in maintenance and reliability, operations, production, or engineering.

Virtually all those in industries who are responsible for maintaining physical assets, including manufacturing, process, pharmaceutical, mining, oil and gas, and facilities management, to name a few.

Program Fees

\$2,195*

Per Individual

\$1,995*

Per Each Additional Registration

from the same organization; government employee; or when you register for all three modules at once

Your registration fee includes daily snacks and lunches, and training materials. Lodging and evening meals are not included with your registration.

*If registration is not made two weeks prior to course start, fees increase by \$200.
